SUBJECT: STATISTICS ON AFDC FG/U AND FOSTER CARE (FC) CHILDREN NEEDED TO IMPLEMENT THE EDUCATION CONSOLIDATION AND IMPROVEMENT ACT OF 1981, FOR OCTOBER 1992

This letter transmits instructions for the collection and reporting of 1992 data for federal fund allocations under the Education Consolidation and Improvement Act of 1981 (ECIA). The enclosed statistical forms, CA 802 and 803, will be used for compiling data required by Chapter I of the ECIA.

The study month for the ECIA report on AFDC FG/U and foster care children will be October, 1992. Only federally eligible AFDC FG/U children and all foster care children placed in family homes (non-group home placements) who receive public funds will be reported for purposes of this study. Also, both AFDC-FG/U and foster care children must be aged 5 through 17 and born in the period November 1, 1974 through October 31, 1987. All grants/payments issued for the month of October 1992 are to be reported even though the warrant may have been issued in another month. Each county must use the integrated payroll. No sampling or estimating may be used in preparing these reports.

The form and instructions for reporting on AFDC children are enclosed and reflect those changes appropriate to process the October 1992 ECIA reports. A supporting list of only those federally eligible children aged 5 through 17 in AFDC families receiving grants of \$1,162.50 or more is required, as stated in the instructions outlined in Report Item 3 on the reverse side of Form CA 802. Do not submit to the State Department of Social Services (SDSS) a list of federally eligible children in families receiving grants less than this amount.

For reporting purposes, foster care children includes all children placed in 24-hour out-of-home care, except children placed in group homes, who receive federal, state or county funds. The reporting of foster care children is to be completed separately for in-county and out-of-county placements. In-county placements are those children who are aided by your county and reside in your county. Out-of-county placements are those children who are aided by your county

but reside in another state or county. Again, reportable children are those aged 5 through 17. Do not report children aided by another state or county in your county totals. No supportive list is required for foster care children. The due date for these reports is November 16, 1992.

Grants under Chapter I of the ECIA are to provide services for educationally disadvantaged children. Distribution of these funds is made by the California Department of Education (CDE) to the County school districts.

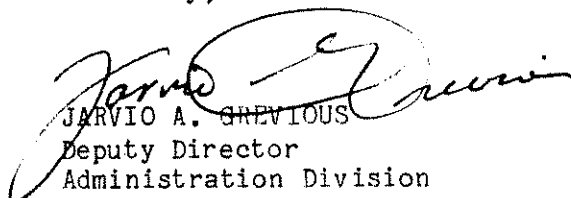

To assist the CDE in the allocation of ECIA, Chapter I funds, the County Welfare Department is to release the address of each AFDC FG/U child, aged 5 through 17, in AFDC families receiving a cash grant to CDE upon request. This information may be a computer or manual listing and should be separately displayed as families receiving a grant of \$1,162.50 (or more) and \$1,162.49 (or less) to CDE. The determining factors applied by the CDE in appropriating funds to the individual schools are based on residence given and the fact they are children of AFDC FG/U families receiving grants above the given grant level for the year of reporting. For purposes of preparing the ECIA annual report to the school district, it is not a requirement that the name of the school attended by the child be given.

Division 19, Confidentiality of Information Manual of Policies and Procedures, Section 19-004.62, states: "Information concerning the number of AFDC families living within a particular school district requested to support entitlement to funds under the Elementary and Secondary Education Act (ESEA) may be released to authorized representatives of the school district. A signed agreement with the school district stating that the confidential information obtained will only be used for purposes of fund claiming under the ESEA and that the district understands that there is criminal penalty for release or use by the school district for any other purpose shall be obtained. This prohibition includes the use of the confidential records to identify applicants or recipients to school teachers and administrators." Welfare offices are to disclose as little information as possible to meet the surveyor's needs. Addresses may not be retained after the survey is completed and no one but the surveyors themselves may have access to the information.

Since the Statistical Services Bureau is set up with microfiche equipment, counties may elect to transmit ECIA report data via microfiche.

Any questions regarding these reports should be directed to Levy St. Mary of the Statistical Services Bureau at 916/445-2135 or ATSS 485-2135.

Sincerely,

JARVIO A. GREVIOUS
Deputy Director
Administration Division
